Hi gang, Here are a few words from our active Ks hams who take time to report their activities to their SEC.

Hi Orlan: **Bravo2** Feb report.

Sorry so slow on this one. Had trouble getting the total in. anyway NCK ARES/RACES net Sessions 5 QNI 74 QTC 1

73

Stan C

WAØCCW

Hi Orlan:

Here is net activity for March

Sessions 5 QNI 92 QTC 1

I didn't call this by zone because it covers 3 or 4 zones.

73

Stan C, WAØCCW

**2F** McPherson County 5 nets in March on 147.33mhz with a total of 28 checkins. No traffic handled but ARES was well represented at the NWS Spotter meeting held in McPherson this month. We have all systems tested and ready for the Spring storm season.

WD0EUF Stan

In like a Lion....and staying that way...
No big severe weather in March here in Johnson County, but we are actively preparing for those April showers.
JOCO ARES hosted its spring search & rescue drill in cooperation with area CERT teams and the civil air patrol. More than 75 folks came out on Saturday morning to search our "Haunted Hospital" for wounded, and provide necessary care & transport. A big thank you to KC0ZDS, Denny Healzer with HCA Midwest for allowing us to use 2 entire floors of their hospital for our drill! AMAZING commitment to the preparedness & the community by that organization. Also thanks to our own K0NK who made the drill fun and informative for everyone!

HB2805 made it through and is waiting for the Governor. I am amazed at the amount of support we have received both inside and outside the ham community on that bill. Our ham class is still going strong, 15 new graduates passed on March 27th, including 7 year Lucie Goodhart! She is our youngest to ever participate in the class, and is now a ham! That brings us to 235 people since October 06. Send someone our way! Latest class info is always at www.hamclass.org, and we plan on having a session in Topeka, and another targeted specifically towards CAP in the near future.

You can tell spring is here, and summer fast approaching, because the Olathe Marathon was held on March 29th. It is our kickoff public service event for the whole season, and KC0QBU did a wonderful job as usual in organizing this HUGE event. Ham radio has proven its worth repeatedly in concrete fashion to the unified commanders involved in this event. Another feather in our cap.

K0HAM continues in its support of JOCO ARES and ARES throughout the state by putting on repeaters with amazing coverage areas. Thanks to the 146.955 machine in St. Marys, KS you can now talk from Manhattan to Olathe, and with the linking, you can do it on a handheld! These systems are hardened against power outages and wind damage thanks to their being located at old AT&T microwave link sites. Thanks to WV0S for his ongoing suport (financial & tower space!) of amateur radio (repeaters & APRS) throughout Kansas and the midwest.

KCHEART (Hospital Emergency Amateur Radio Team) is still in the kickoff stages, and we are working to recruit leaders for that organization. If you are interested in helping to get ham radio equipment and procedures in place for a hospital in your area, please contact KC4WCG (kc4wcg@hotmail.com) or myself (kc0bs@arrl.net).

Finally, I was fortunate enough to be invited to the kickoff for the Eisenhower center in Topeka at the national guard armory. The entire purpose of this entity is to think about and plan for disasters in Kansas. It is being lead by a couple of bright young men who are quite adept with technology, and they report directly to Adjutant General Bunting. I was thrilled to learn that both of the leaders are hams themselves! Amazing where we show up. Of course, I couldn't pass the opportunity to mention how effective APRS can be in times of disaster, and showed them the bigredbee tracker. (It is smaller than a deck of cards, has gps,tnc and 5 watt frequency agile transmitter all in one package!) I briefly showed it to General Bunting as well. The hams were impressed, and have invited me back to determine how we can integrate APRS and ham radio into their disaster plans & drills. GREAT progress. But what was most impressive, was that later that evening, at the reception, General Bunting grabbed me by the shoulder, and led me over to those two leaders to tell them about the tracker I had shown him earlier! Seems like we have made a good first impression there, and now we have to follow it up. I will be working actively to do so, and hope you will be part of that effort.

There is plenty of room for you to help move ham radio forward in Kansas. If you don't know how to get involved, I can give you some ideas!

ICS 700 this is the basic overview of the program-
ICS 100 this course leads into a little more of the nuts and bolts of the Management and control of the program.  

ICS 200 this course is a little more elevated in the procedures and how the system works to branch management teams, this gets into the ICS forms and such.

Exercise on 23rd of April and need volunteers:  
We have an exercise supporting the Leavenworth County EM and Health Dept on the 23rd of April. The details are still a bit sketchy, but we will need at least five people in support of the real world exercise, which includes the Health Dept, hospitals, the Water Dept, LOE agencies and the Post. This exercise will include expeditionary communications applications, portable, mobile and perhaps fixed site. I will have the exercise scenario next week. The requirement, as of now is for both 2M and 70cm, portable and mobile. The exercise will last from approximately 0800 until 1300, on the 23rd only, with the possibility of some spill over to later in the afternoon. There is supposed to be a hot-wash immediately after the exercise and then a full AAR a week or so later. If anyone has hazmat experience and/or an LEO/Health Care, please let me know. 

Mac's 70 cm Net to the list is added to this month's report.

Don't forget to check-in on the Douglas County ARES Net on 147.03 PL 88.5 right after our Sunday night net if you have a chance.
