*February 2009 ARES Reports*

Hi gang, This issue comes as two attachments. One is a Ks ARES map with **red** ink showing the counties which don't have an EC and **blue** ink that shows those EC who share their SEC reports with KAR. I want to say, thank you for making this report possible. Orlan w0oyh

## **ARRL KS SECTION EMERGENCY COORDINATOR - Bob KØBXF**

2-03-09

From desk of KØBXF SEC KS

A few years ago I managed to accumulate the total listing of the Ham population by Kansas county and ARES Zone thru the help of the Internet. 7121 Amateur radio calls listed. A few were deceased or not active at that time, however only the active Emergency Coordinator appointed in those ARES zones could really confirm those numbers by the personal contact made on the effort of the EC. In an effort to update those figures about last September, I got side tracked by Brain surgery twice in September and never finished the job. I will do so within the next month though and each EC and DEC together with myself and Ron, KBØDTI, our Section Manager will attempt to see if we can improve the number of active participants within the state, communication wise.

Recently thru the Central States Ham list, hosted by Larry Staples, a couple of good articles were published reference communication efforts. Brian KØBS, wrote ' You must take the time to study, plan and drill for the scenarios that are possible and likely to occur in your area. 'You must have, and take, the initiative to act when the disaster comes, to step in without being asked, to volunteer your services to the people that need them. Deploy thru appropriate channels, IF they are in place. (Don't self deploy unless there is immediate threat to life and property, with no one else to act.'

Not new, has been said for years, and encouraged by all DEC and EC.

It goes with out saying, if you intend to be one of those prone to making a decision to deploy, take the time to take those study sessions recommended by FEMA and usually those Emergency Managers etc. who usually are in charge of disaster situations in most cases.

For those who assist in various other ways, the course sessions are not mandatory, however they are suggested for all to be aware they are in place and if all possible, become aware of all or part of the material offered. Not all ARES members are required to have passed those tests connected with said sessions in order to provide ARES communication needed, either emergency or public service wise.

Dennis KØQBU wrote ' It is likely to be a record breaking year for the use of HAM radio in 2009.

On behalf of the other event coordinators in the area, I wanted to get a message out to all the HAMS and especially the new HAMS in the metro area to please help support events in your area this year. Event communication is a vital service we offer to the community and great exposure to the public and public service agencies regarding the services we can provide in both an emergency and non-emergency situations. Working a bike race a run, or other special event takes a couple or even a few hours of your day but has a huge impact of the perception of people about Amateur Radio.'

The point being! We need every active ham radio operator to be registered with your EC so we know who might be available for any and all events of communication effort that might be called for.

To find your EC go to [www.cenkares.org/distks.html](http://www.cenkares.org/distks.html). IF by chance you find a spot you would like to fill a vacancy, contact me immediately at [rsummbxf@aol.com](mailto:rsummbxf@aol.com).

Let us grow from the 15 EC zones reporting this month to a number closer to the 47 available. A lot of inactive positions are hoped to be filled this year. Want to be a part of the expansion????

## ◆ **2C-YEAR-END ARES/RACES REPORT**

#####

Here is my year-end 2008 report for ARES and RACES (might as well kill two birds with one stone!-) somewhat following the pattern suggested for the 2007 report, but with more explanatory material because I HAVE A PROBLEM (which will be explained below):

NAME OF AMATEUR RADIO CLUB(S) PER ZONE WITH CONTACT PERSON(S)

=====

MAARS: Manhattan Area Amateur Radio Club  
Brian Carter (KC0DWX); 701 Frey Dr; Manhattan, KS 66502

An amateur radio club has formed in Clay Center, but I don't remember its name right now. However, two contact people are:  
Tom Shadle (AC0MJ); 223 Pomeroy St; Clay Center, KS 67432  
Mike Snyder (N0WSZ); 719 Sherman St; Clay Center, KS 67432

LIST OF YOUR ASSISTANTS AND THEIR RESPECTIVE ASSIGNMENTS FOR 2009

=====  
=====

Wayne Chesterman (N0OCR), Assistant EC for Geary County

Tom Shadle (AC0MJ), Co-Assistant EC for Clay County  
Mike Snyder (N0WSZ), Co-Assistant EC for Clay County

David Mills (KD0AZG), Co-Assistant EC for WARN activities in Riley County  
Mark Benfer (KC0QAS), Co-Assistant EC for WARN activities in Riley County

MAJOR ACTIVITIES DURING THE YEAR

=====  
=====

ARES/RACES had an official callout Monday, 17Nov08, to provide emergency communications for most of Riley County (EXcluding Manhattan) after telephone service was disrupted for practically everywhere north and west of Manhattan. Some 10 people deployed to sit at/near most of the Rural Fire Stations in the county and were prepared to radio emergency calls directly to the EOC. Fortunately, no emergencies were reported during the outage! We even got a small mention in The Manhattan Mercury.

Not specifically ARES/RACES, but Riley & Pott County HAMs provided full communications, first-aid, and follow-the-last-bike support for three bike rides, each of which had short, medium, and 50-mile rides, and I reported the August as our SET exercise for 2008:

March: Cabin Fever bike ride

May: CASA bike ride

August: Yellow Brick Road bike ride

We've already been asked to help with Cabin Fever again this year.

SUMMARIZED RAW DATA LEADING TO MY PROBLEM

=====

OF THE 100 "RESPONDING" HAMs KNOWN TO LIVE "NEAR" MANHATTAN

-----  
Inactive=25 Elderly=11 Yes But= 9 Net HAMs=55 Active=41  
EM Power= 9 Work HF=17 MobileHF= 4 Work 2m=43 Have 440=20  
Spotters= 7 SelfAlert=17

ARES=26 (This includes 2 EC's & 5 AEC's)  
WARN=18  
RACES=19 (Note that 19 belong to both ARES & RACES,  
5 belong to both RACES & WARN,  
6 belong to both ARES & WARN,  
and 5 belong to ALL THREE!)

LEGEND FOR THE ABOVE:

- \* Inactive = Have told me they don't ever get on the air
- \* Elderly = Are so old that I would not call on them except under the most-dire circumstances
- \* "Yes But" = Registered with ARES/RACES, BUT when the sh\*t hits the fan, they will probably be doing something else (fireman, state trooper, mother, dorm manager, etc.)
- \* Net HAMS = 99 - Inactive - Elderly - YesBut
- \* Active = Are on the air or who have said they are
- \* EM Power = Have emergency power BEYOND batteries and automobiles
- \* Work HF = Use HF frequencies
- \* MobileHF = Have mobile HF capabilities or can have within minutes
- \* Work 2m = Use 2-meters
- \* Have 440 = Have (but don't necessarily use) 440Mhz
- \* Spotters = Spotters who are NOT part of WARN
- \* SelfAlert = HAMS who won't commit to registration but who claim they will self-activate if they perceive sh\*t
- \* ARES = Registered ARES members, including EC's and AEC's
- \* WARN = Weather Amateur Radio Network = tornado spotters
- \* RACES = Registered RACES members and multiply-registered

MY PROBLEM

=====

- \* Part of Manhattan is in Pottawatomie County
- \* Pottawatomie County has not had an active ARES program for some years,
- \* HAMS living as far east as Wamego have been registered with the Riley County ARES/RACES group for many years (some of those HAMS also WORK in Manhattan), and
- \* Herm Balderok (WV0R) has recently organized an ARES program in Pottatomie County!

Thus the above "summarized raw data" counts have LOTS OF OVERLAPS, such that, right now, it is difficult to say who would come running and where they would go if/when something bad happened. However, Herm and I will eventually get things sorted out.

IF YOUR GROUP HAS MADE COMMITMENTS TO ANY ORGANIZATION....

=====

For "fun" things (e.g., helping with bike rides; we "do" several bike rides each year), and we help when we are asked if we have enough volunteers to do the job correctly.

Several ARES and/or RACES members are also WARN weather spotters (which is routinely called-out by the Emergency Management office).

While we do have contacts with the American Red Cross and the Salvation Army, in Riley County, when an emergency involves more than one agency or

organization, the Riley County Emergency Management office is involved, and if/when that office needs HAM help, my ARES/RACES group has agreed to help AND TO BE DIRECTED BY IT.

YOUR WILLINGNESS TO CONTINUE IN THE POSITION YOU NOW HOLD

=====  
I am willing (though I am still looking for a replacement!)

FINAL COMMENTS

=====  
HAM activity in Manhattan/Riley County increased a little over 2007.

Even though I'm "losing" my Pottawatomie County volunteers, activity is growing in Clay Center, so maybe I'm making some progress?

Unfortunately, I can't report any progress for Geary County.

Duncan MacLachlan KU0DM - Rapid Response, Youth Outreach  
Denny Healer KC0ZDS - KCHEART

JOCO ARES Celebrated in January by awarding SPARK! awards for members service in 2008. Darren Martin, N0MZW received the June Jeffers Legacy award for his outstanding support of Johnson County ARES for the past several years. KU0DM presented the keynote for the Kaw Valley ARC Banquet, and discussed how to recruit youth into the hobby. You can watch it at [www.ares.org](http://www.ares.org).

On February 9th, the presentation on Search and Rescue will prepare members for the March 9th nighttime SAR drill.

Other great training opportunities abound as we wait the severe weather season, and public event season after that. On February 4th, the NWS will provide training to those members who are interested in weather spotting. On February 5th, I will present "Using in APRS in disaster" to the Pilot Knob ARC, and on February 11, I will present APRS to the Douglas County ARC. If you don't know anything about APRS, I encourage you to come out to one of these sessions and get your feet wet. If you bring a laptop, I will even install the best APRS software for you, so you will be ready for any weather, or public service event. It is one of the most powerful new tools to add to your ham radio tool belt.

[Hamclass.org](http://www.hamclass.org) is still seeking students for upcoming classes at the end of February, March & April

We especially welcome youngsters as part of the Kansas Legacy Program (recruit or bribe your kids, grand kids, nieces & nephews--We have had kids as young as 7 succeed in this class!) We also target Emergency Managers, Police, Fire, Medical & Hospital personnel of all types. Of course ANYONE who has an interest will find this class has the info they need get their license, and all are welcome! Sign up online at [www.hamclass.org](http://www.hamclass.org)

A new centralized calendar is available that tries to list every ham related event that is going on in the KC metro area, as well as NE Kansas and NW Missouri. Check out the calendar at [www.mecckc.org](http://www.mecckc.org) You can add your own event to the calendar, and if you or your Club or ham organization run a website, you can actually have the calendar on your website as well. This centralized data location should make the most of the many organizations and events in the area. Contact [kc0bs@arrl.net](mailto:kc0bs@arrl.net) for help on adding it to your website.

Hope to hear you on the air, or see you at one of my presentations!

73,  
Brian KC0BS
