Practice practice practice....we may not be perfect yet, but with all the ham volunteer hours spent on special events in the last 30 days, we must be getting close! Cider Mill Ride, Jackson County
Triathlon, Midwest Meltdown and Bike for the Brain are just the ones that I am the coordinator. There are many more out there that rely on hams for their logistics and communications support. Its the closest thing to a real disaster we ever hope to have! I am so grateful to all the hams that come out and sacrifice their weekends for the good of the community. But they do get something out of the deal. Of course, the feeling of pride for helping others, but also a sense of confidence to be able to respond when disaster hits, as well as a list of things they need to remember to fix for next time. Public service events can't be beat for Ham drilling. Even the October SET with all its agency interaction still has a "simulated" feel. On these bike rides, when a rider goes down, everyone's adrenaline starts rushing as they spring into action to get the rider the assistance they need ASAP. This is NOT a drill!
If you haven't done a Public Service event in the last 30 days, I would say you're out of shape, and missing out on some of the most fun parts of ham radio! Still lots of opportunities coming up in the next 30 days. (See Larry's List) Make this resolution today: I will help with an event before the snow flies. Your preparedness, confidence and community will thank you!
